

OCTOBER 2020

# PROJECT SEARCH

Northwestern Medicine Delnor Hospital

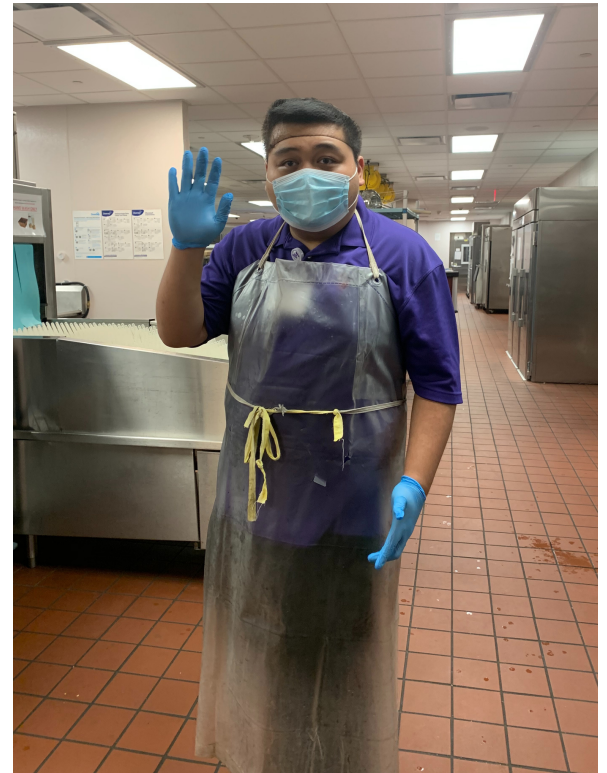

## A Variety of Work Skills

Our Project SEARCH interns are learning a variety of work skills during their first internship. Check out what some of our interns are working on!

## Working as a Team

Our Project SEARCH interns are learning a variety of work skills. Carlos and Tonya work together to deliver pillows to many departments in the hospital.

## Gaining Independence

Randell is an intern in the kitchen as a dishwasher. Randell independently puts on his personal protective equipment (PPE) to complete his daily tasks..

## Learning to Problem Solve

Navraj is learning to problem solve and find new routes when the elevators are down for maintenance.

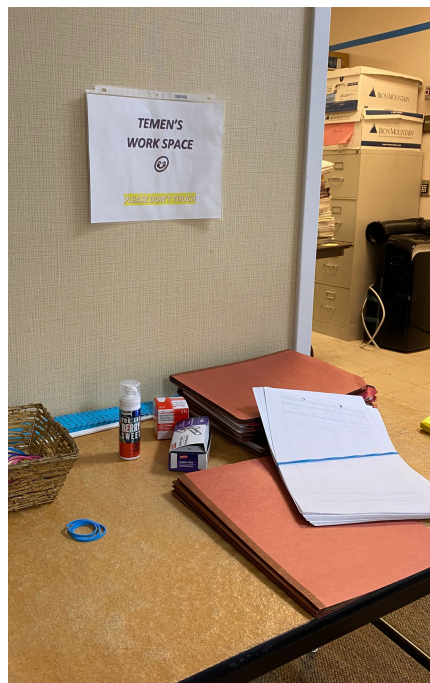

## Taking on New Tasks

Chris was given a new task working closely with the Sterilization department. Chris helps manage inventory to ensure supplies are up to date and disposed of properly. Chris wears scrubs while working in a sterile environment.

## Alumni Spotlight

Project SEARCH Graduate, Temen Kading (2020), took on a new project at work this month. Temen is responsible for managing the medical records of former residents at Brighton Gardens.

## UPCOMING EVENTS

- Project SEARCH-Delnor will be hosting a virtual Open House November 17th on Zoom.
